The Honorable Jim Gibbons
Governor of The State of Nevada
State Capitol
101 N. Carson Street
Carson City, NV 89701

RE: Recommendation of Daniel E. Campbell, P.E., S.E., to the Nevada State Board of Engineers and Land Surveyors.

Dear Governor Gibbons:

Individuals who serve on the Nevada State Board of Engineers and Land Surveyors must possess several vital characteristics: they must possess the requisite technical skills; they must have a distinguished career; and, they must be steadfast in their desire to serve the public. Mr. Daniel E. Campbell, P.E., S.E., fully meets these requirements, and I am writing to recommend him to the state board.

Throughout his career, Mr. Campbell has demonstrated a steadfast commitment to excellence, supported and nurtured others throughout his career, and has consistently extended his commitment to community involvement and public service. I have known Mr. Campbell for more than 2 years, as we have collaborated on efforts on behalf of our professional society, the American Society of Civil Engineers, to define a new body of knowledge for the engineering profession, and to elevate professional standards and service to the public.

It is my understanding that it has been some time since a structural engineer has been named to the Board. There is not likely to be a better, more informed choice than Mr. Campbell. He exemplifies every quality of an outstanding engineer and does so with dignity, humility, and an uncompromising sense of service.

Through more than two decades of professional experience and service, Mr. Campbell has built a respected company (LV Engineering, LLC), a commitment to community and

an untiring record of public service. I firmly believe he is deserving of a seat on the Nevada State Board. Please feel free to contact me if you have any questions.

Respectfully yours,

A handwritten signature in black ink that reads "Jeffrey S. Russell". The signature is written in a cursive style with a large, prominent initial "J".

Jeffrey S. Russell, Ph.D., P.E., Dist.M.ASCE
