The Honorable Jim Gibbons
Governor of the State of Nevada
State Capital
101 N. Carson Street
Carson City NV

It is my pleasure to recommend Mr. Daniel Campbell for appointment to the Nevada State Board of Engineers and Land Surveyors! Our professional relationship began several years ago at the MGM Grand Hotel and Theme Park. Mr. Campbell provided a hand's on structural engineering service to our construction team. This service he provided with a personal interest and creative mind set. I can also add Mr. Campbell had the ability to communicate with our complete staff when compiling field information to facilitate changes to the structural engineering on our projects. Since our first project together, I can safely state he is one of a few good men contributing to the success of our companies. Mr. Campbell thru the years has earned my respect along with all of our employees in the construction division. Please feel free to call in the event I can assist you further.

CC: Current Nevada State Board Members

Ron J Scarpa

President
